

ASTT(e)Q

In collaboration with ASTT(e)Q, a non-profit organization helping trans people in health and well-being, we developed a web application to strengthen the workflow process of social workers in our local community.

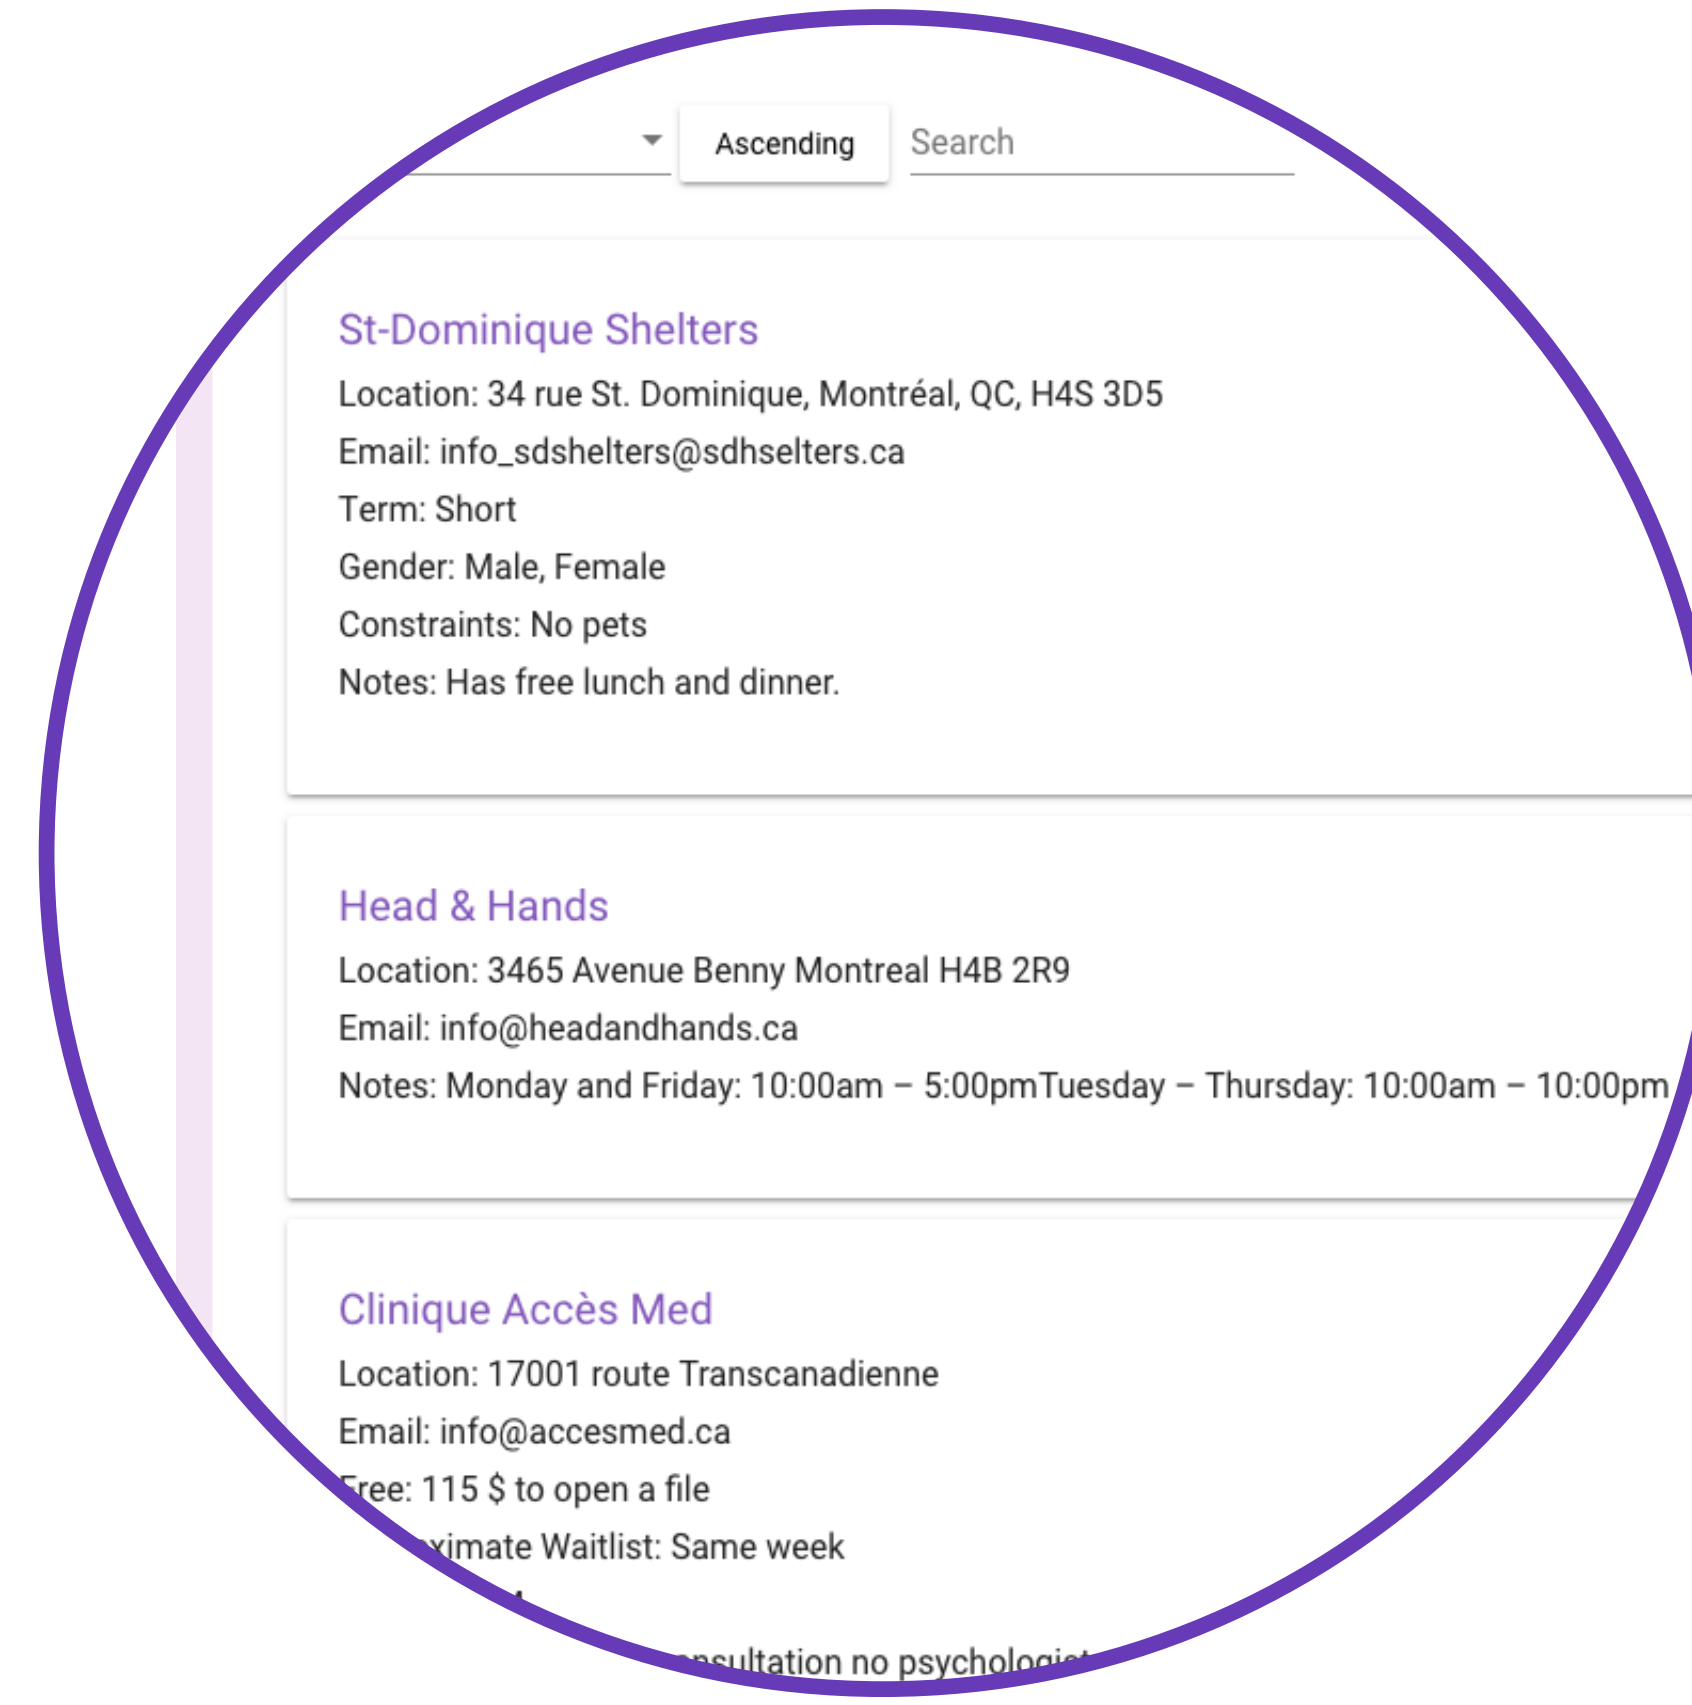

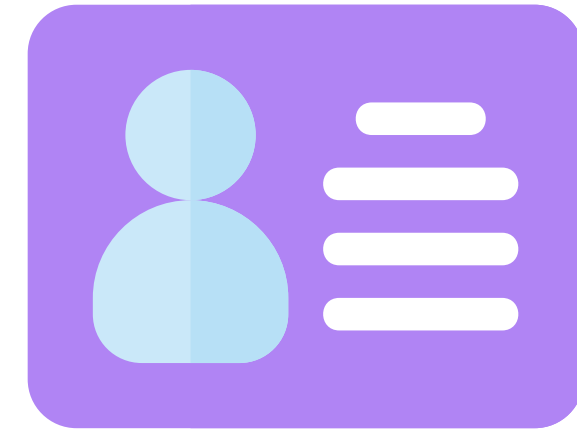

REPORTS

Automatically generate charts for greater insight and statistical analysis of relevant metrics.

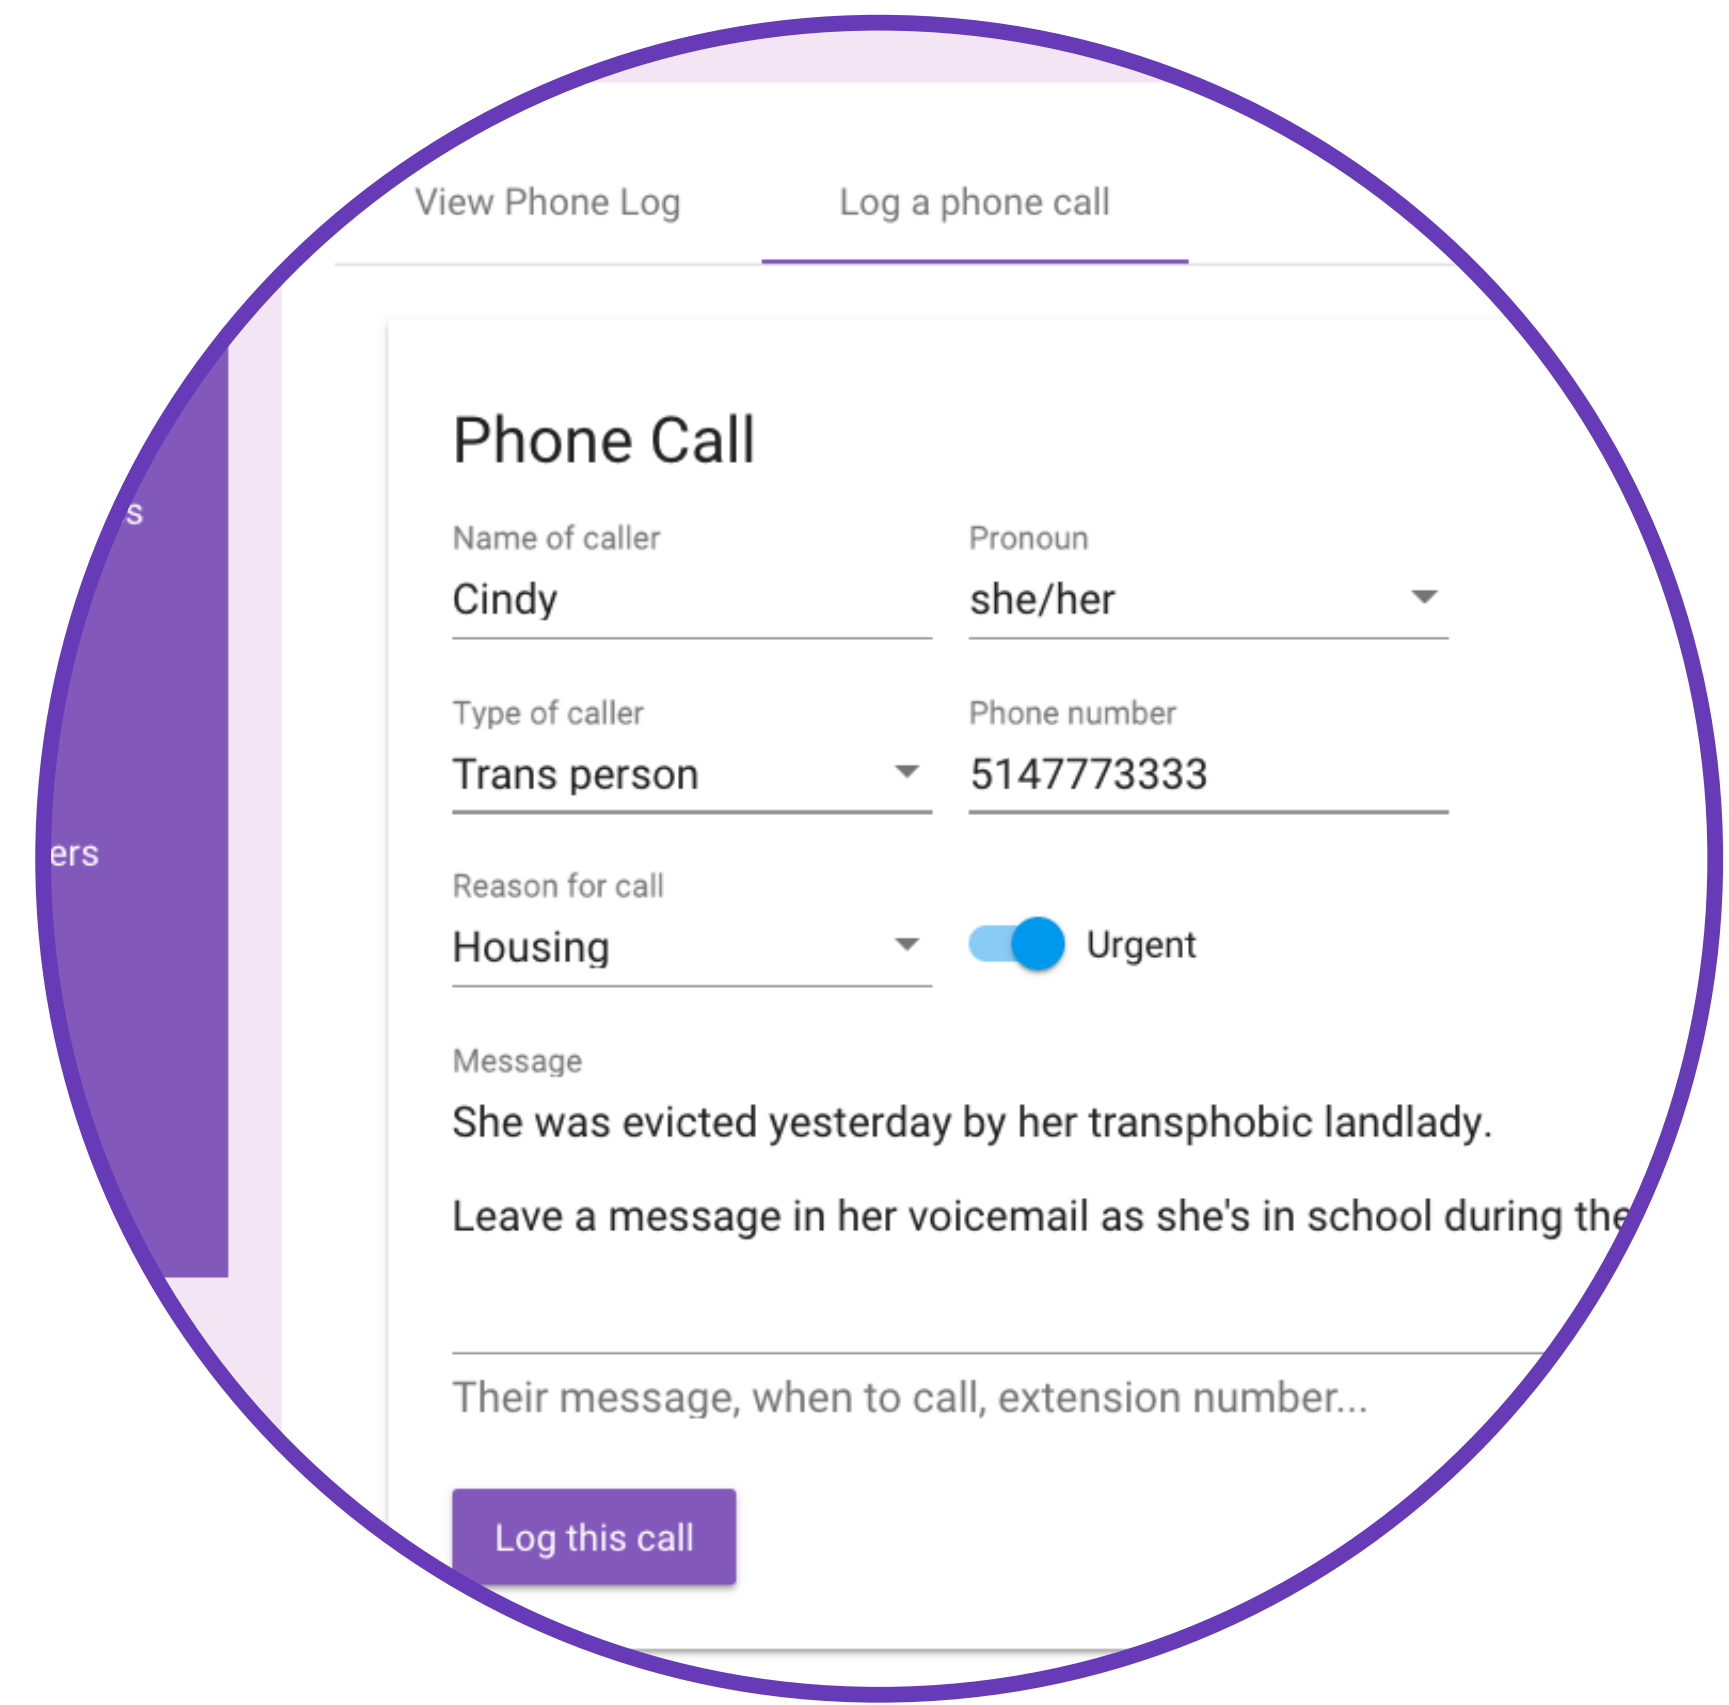

PARTICIPANT RECORDS

Manage case files to better follow progress, save important documents, upload field notes, while keeping confidentiality.

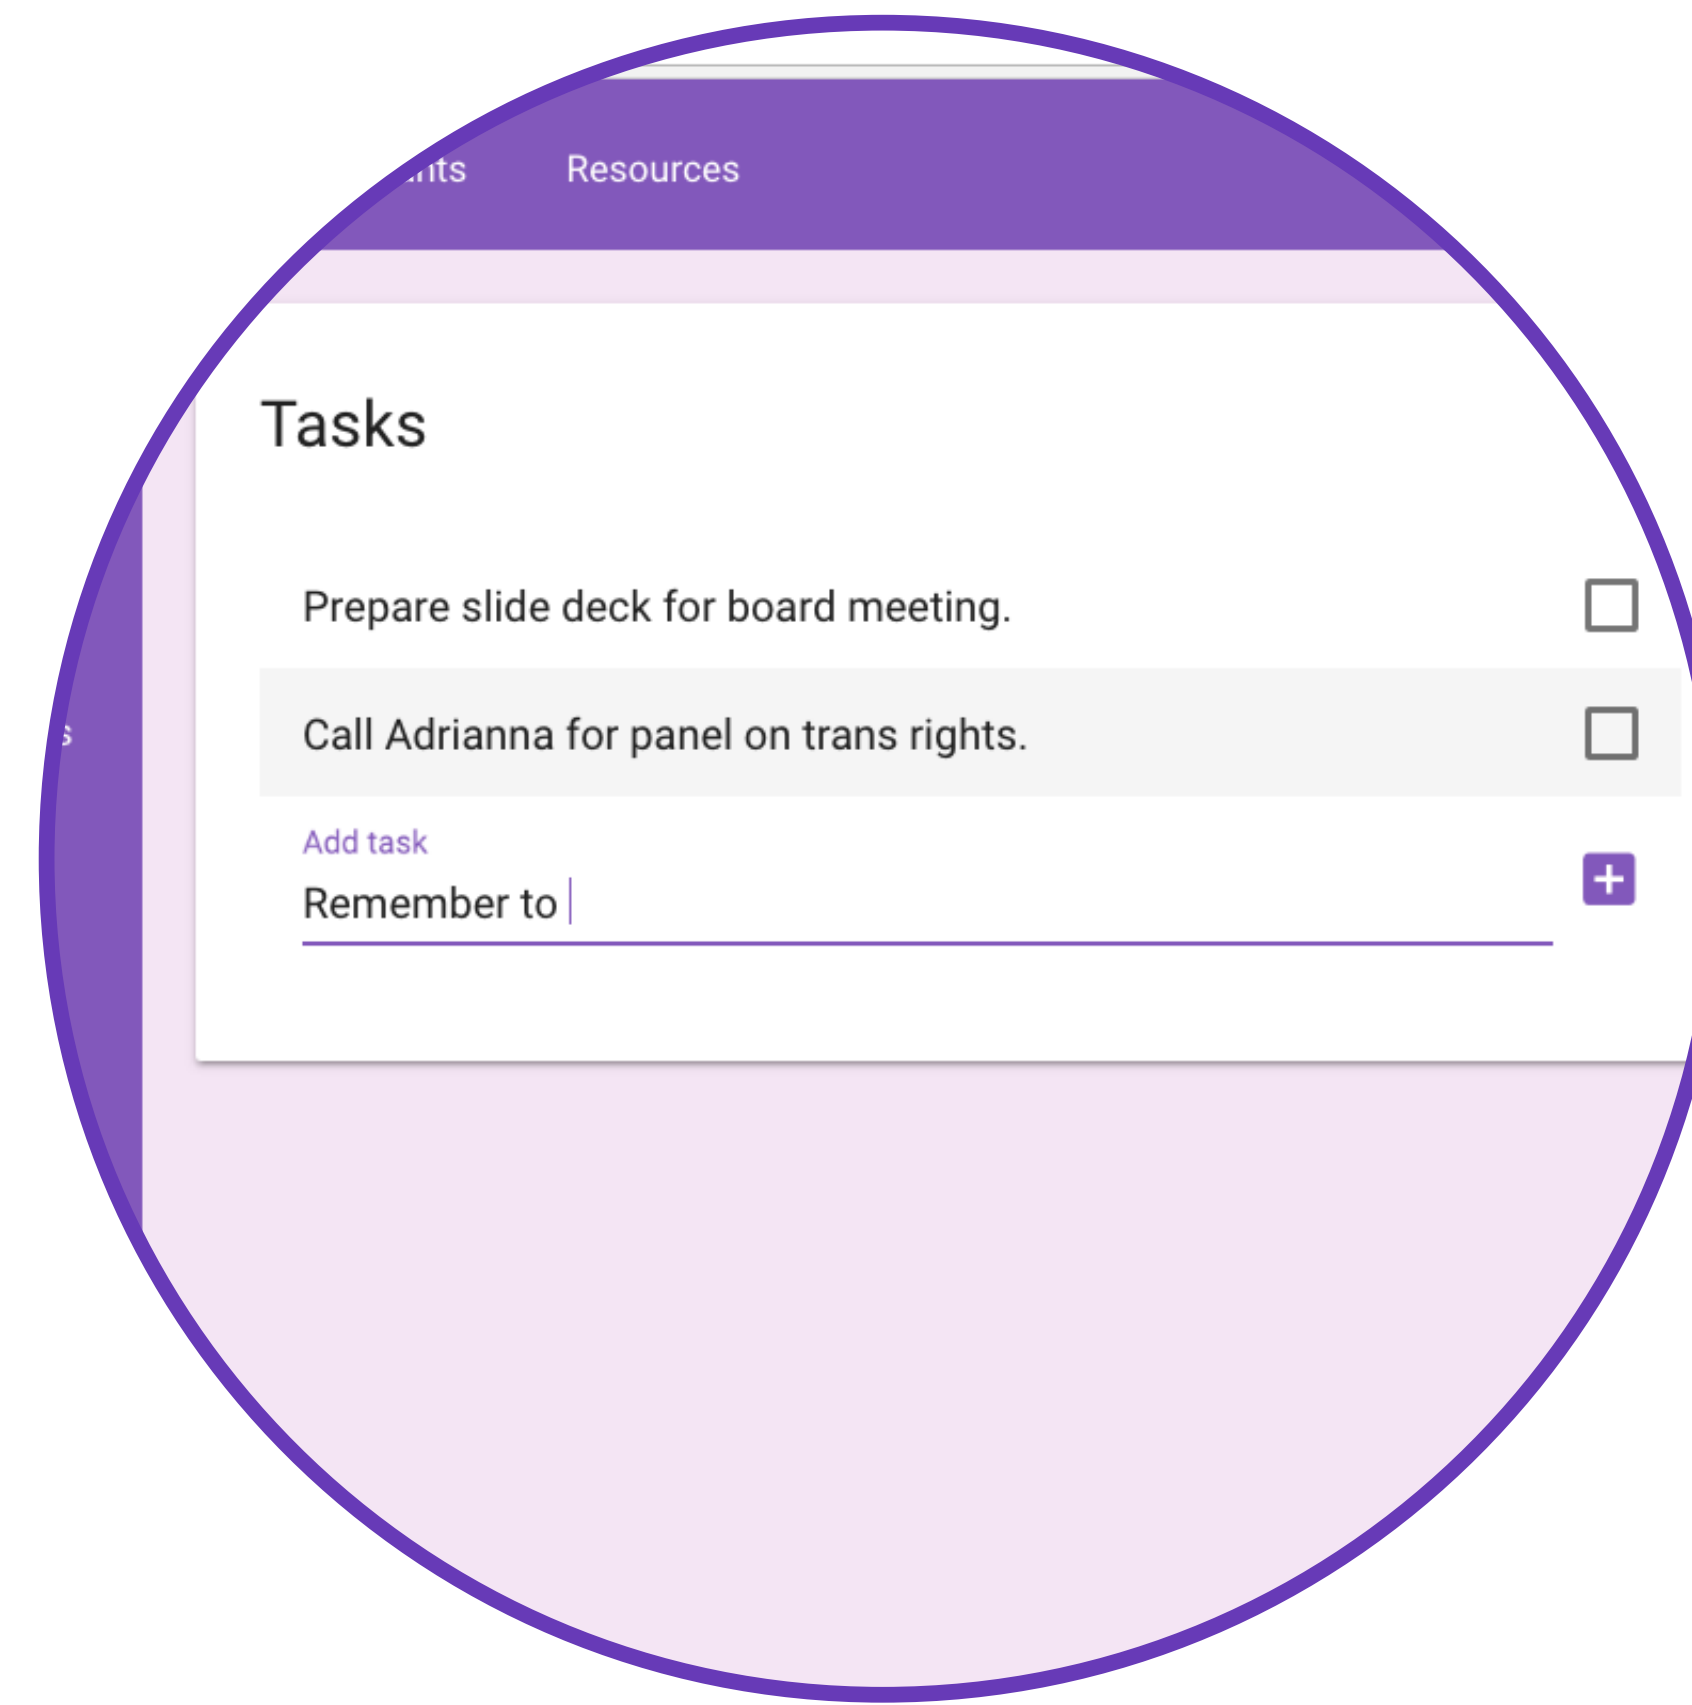

RESOURCES

Shared access to pertinent information, such as housing, legal, health, immigration, food security, employment, and accompaniment resources.

PHONE LOGS

Keep track of incoming calls and communication to better report statistics.

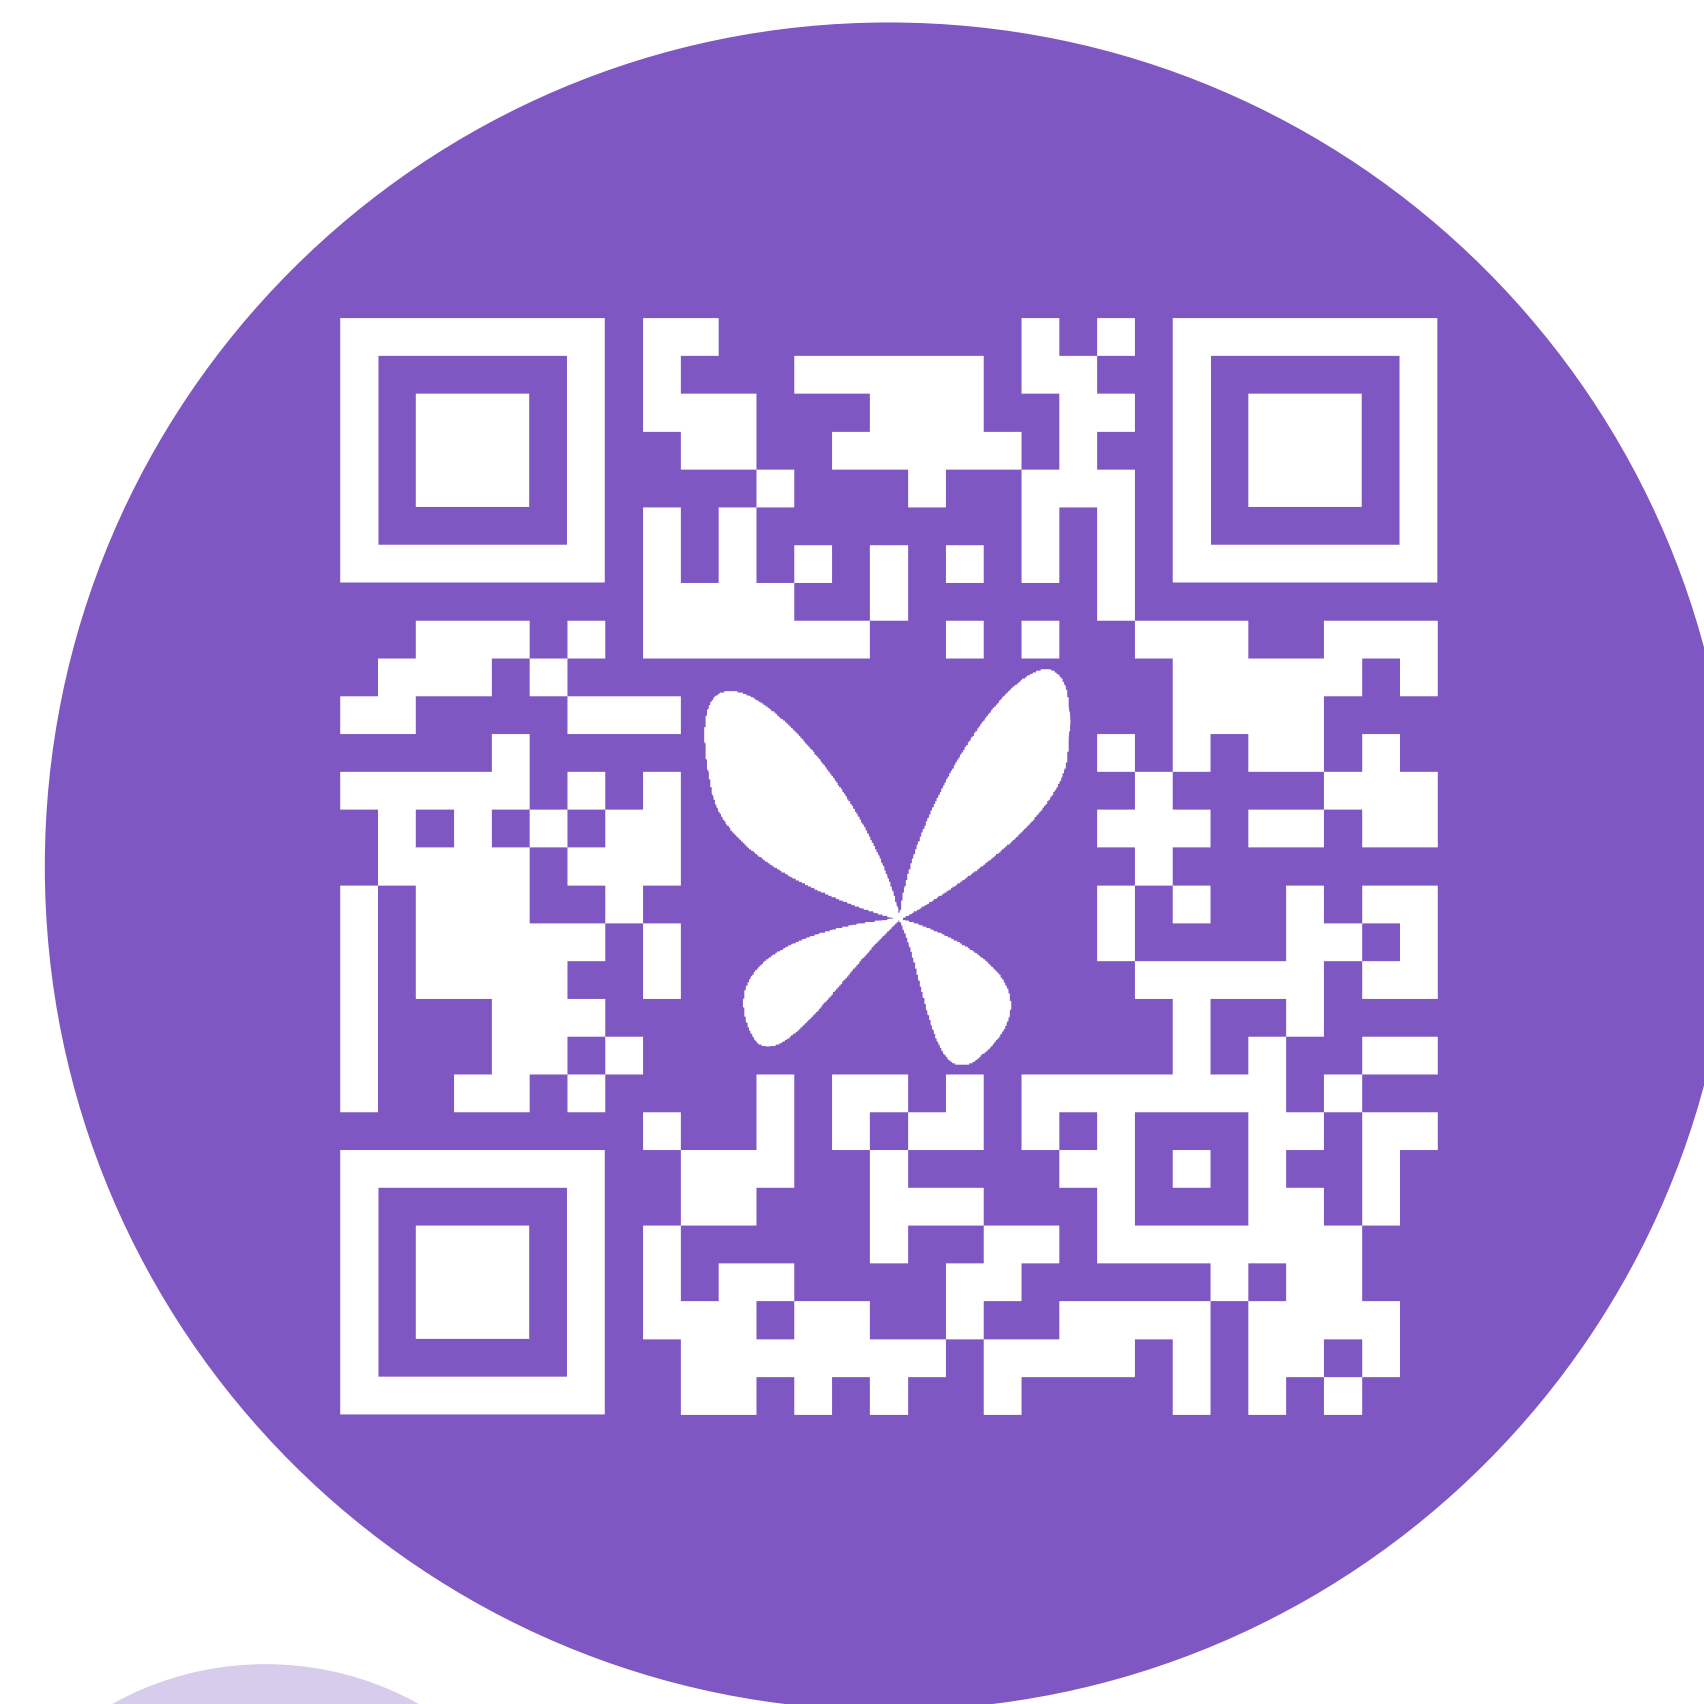

DASHBOARD

Easily keep track of work, monitor recent activity, set tasks, oversee active casefiles, and manage accounts.
